WHO WE ARE

Spaces that feel personal, practical and lasting.

Sector Seven Interiors is a Kerala-based interior design company creating customized residential and commercial interiors. Every project starts with how a space will be used, the routines of a family or the rhythm of a team, and ends with an interior built around those needs.

We combine modern interior concepts with traditional Kerala design elements, and use detailed 3D visualisation so clients can see their space before execution begins. Our studio is in Chathamangalam, Calicut, with projects across Kerala.

01

Quality craftsmanship

Careful detailing in joinery, finishes and fit-out, made for everyday life and Kerala's humid climate.

02

Contemporary design

Clean layouts and considered materials that feel current today and stay relevant for years.

03

Functional planning

Storage, circulation and light planned around how you actually use every room.

WHAT WE DO

Interior design, end to end.

From the first layout to the final finish, we design customized interiors for homes, apartments and businesses across Kerala.

01 Living Rooms

Seating layouts, TV and display units, ceilings and lighting planned for family time and guests.

02 Bedrooms

Calm, restful rooms with wardrobes, dressers and storage designed into the space.

03 Modular Kitchens

Efficient layouts, smart storage and durable finishes for kitchens that work as well as they look.

04 Dining Spaces

Dining areas with crockery units, feature walls and lighting that bring the home together.

ALSO

3D Interior Design

See your space in detail before work begins.

ALSO

Interior Consultation

Expert guidance on layout, materials and budget.

ALSO

Commercial Interiors

Workspaces planned for flow and durability.

MODERN × KERALA

Contemporary living, with a Kerala soul.

Kerala's building traditions were made for this land: natural materials, open courtyards, cross-ventilation and warm wood. We carry that thinking into modern interiors, so every space feels current yet at home here.

Teak & natural wood

Warm timber tones in panelling, doors and furniture that age beautifully.

Athangudi-style tiles

Handcrafted pattern and colour for floors and feature walls.

Laterite & earthy textures

Natural finishes that ground a modern space in local materials.

Nalukettu-inspired light

Courtyard thinking for daylight, airflow and calm, open layouts.

SELECTED WORK

Designed around real homes.

3D design visualisations from our residential projects.

LIVING & DINING

TV & DISPLAY UNIT

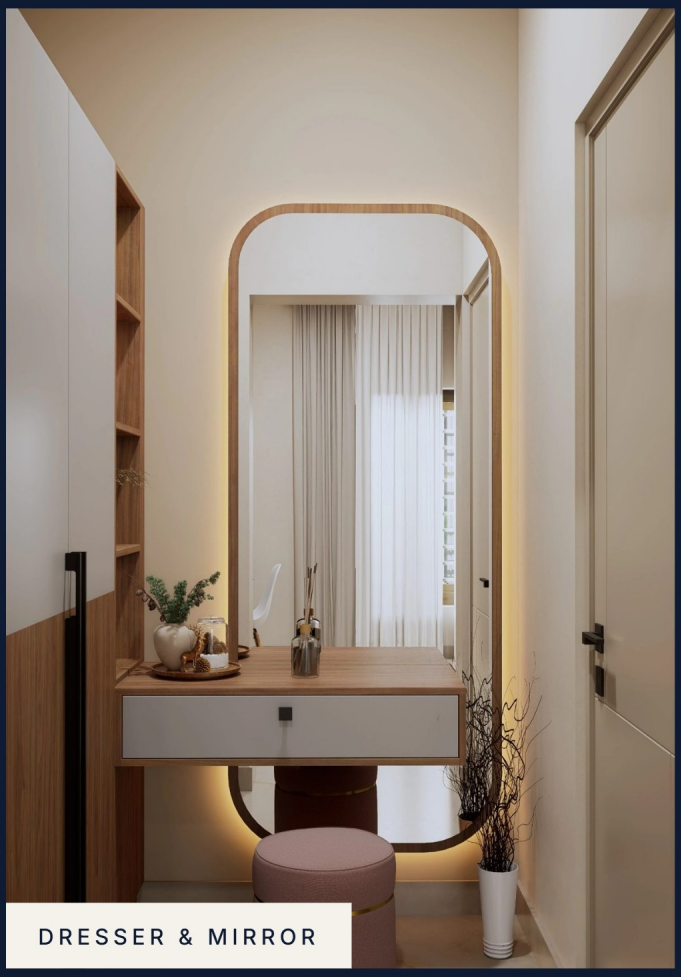

BEDROOM & WARDROBE

KITCHENS · BEDROOMS · LIVING

Every room, considered.

BEDROOM STUDY

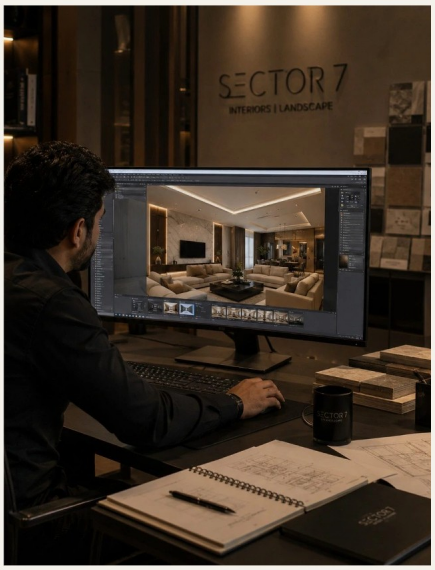

OUR PROCESS

Three clear steps, from idea to handover.

01 Consultation

We understand how you live or work, your style, priorities and budget, and study the site.

02 Designing

Space planning, 3D visualisation and material selection, refined with you until it feels right.

03 Execution

Our team oversees fit-out on site, keeping craftsmanship and detailing to standard through handover.
